

Kaushik Roy Choudhury

Principal Scientist and Program Leader, DuPont Tedlar®

Kaushik Roy Choudhury is a Principal Scientist and Program Leader in the DuPont Tedlar® business. He leads multiple product and application development programs in various market spaces including transportation, photovoltaics (PV), hydrogen generation, paints and coatings, and insulation jacketing.

Experience and Expertise

At DuPont, he has previously led programs on global PV reliability, durability and outdoor degradation of polymeric packaging materials, PV system economics, metallization pastes for silicon solar cells, inorganic and hybrid thin-film solar absorbers, and light emitting and plasmonic nanomaterials. He has over 50 peer-reviewed technical publications and is a frequent panelist at international technical and industry events.

Education

Kaushik has a Ph.D. in Materials Physics and over 20 years of experience in polymeric, inorganic and hybrid materials.
