

水平除胶渣/化学沉铜

Horizontal Desmear/PTH

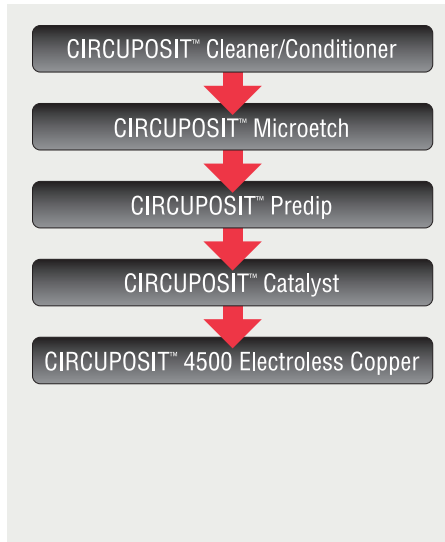

CIRCUPOSIT™ 4000 Horizontal Desmear / PTH

Advantages 优点

- Capable of conveying thin boards (thickness: 50 µm)
适用于薄板(厚度: 50 µm)连续生产
- High productivity due to shortened processing time
较短的反应时间可以提高产量
- Improvement of working environment from closed system
密闭式反应改善工作环境
- Applicable to wide variety of resin such as FR-4, High Tg, and polyimide
可应用于不同的树脂材料,如FR-4, High Tg, 和polyimide

Process 制程

Characterization 特性描述

Excellent coverage in microvia
深盲孔优异的镀层覆盖能力

Excellent glass fiber coverage and ultra fine grain structure
优异的玻纤覆盖能力及细致的化铜沉积

Ultimate in PTH reliability
优异的化铜信赖性

泛用型化学沉铜

Universal Electroless Copper

CIRCUPOSIT™ 3350-1 Electroless Copper

Features and Benefits 特长及优点

- A universal electroless copper process
可被广泛应用于各式设备之化学铜制程
- Reduce chemistry volumes
减少药液使用量
- Reduce catalyst strength
减少催化剂药液强度
- Steady state operation
槽液操作稳定
- Exceptional performance and reliability
具有卓越的产品表现及信赖性
- Global customer reference list
客户遍及全球
