The HPD Standard is solely a declaration of product content and direct health hazards associated with exposure to its individual contents. It is not a full assessment of environmental impacts from the life cycle of this product. It is not an assessment of risks associated with actual use of the product. It does not address the potential health impacts of substances used or created during manufacture that do not appear in the final product as residuals, nor substances created during combustion or other degradation processes.

This Health Product Declaration was generated following the requirements of the noted Standard version and is valid for a total of three years after date of issue or three months after a substantive change of product contents occurs. Users should verify that this Health Product Declaration is compliant with the most current version of the HPD Standard. Accuracy of claims made in this Health Product Declaration is the sole responsibility of the listed manufacturer and certifier (if applicable). The HPD Collaborative does not warrant any claim made herein, explicit or implicit. The HPD Standard is an "open standard" developed and managed by the HPD Collaborative, a nonprofit organization. For more information, visit hpdcollaborative.org.

## **CONTENT IN DESCENDING ORDER OF QUANTITY**

All ingredients must be assessed for health warnings against Priority Hazard Lists, regardless of disclosure level.

Priority Hazard Lists and information on the GreenScreen Benchmarks can be found at www.hpdcollaborative.org/hazardlists.

**GS**: GreenScreen Benchmark; **RC**: Recycled Content, **PC**: Post Consumer, **PI**: Post Industrial (Pre-consumer), **BO**: Both; **Nano**: comprised of nanoscale particles or nanotechnology

| DuPont™ Tyvek® ThermaWrap™ R5.0  |                               |  |  |  |  |
| DuPont™ Tyvek® ThermaWrap™ R5.0 offers the air and water management benefits of all DuPont™ Tyvek® weather barriers with an R-value of 5.0. Compared to other exterior insulation products, the unique structure of Tyvek® ThermaWrap™ R5.0 allows any moisture that may get inside the wall to dry and escape to the outside, helping to prevent the accumulation of water in the wall reducing the chance for water damage and mold. |                               |  |  |  |  |
|  |                               |  |  |  |  |

| There are many Tyvek® product types to meet your protection, durability and aesthetic needs, including the products listed.  |                               |  |  |  |  |
|  |                               |  |  |  |  |
| DuPont™ StraightFlash™ VF  |                               |  |  |  |  |
| StraightFlash™ VF integrates easily with other DuPont weatherization products, including Tyvek® air and water barriers to help seal the building envelope. By protecting against water intrusion, StraightFlash™ VF helps prevent water damage to windows, doors. In addition, it can keep water out of wall systems and away from insulation, to improve both durability and energy efficiency.                                       |                               |  |  |  |  |
|  |                               |  |  |  |  |
| Tyvek® Tape: Seam Tape   |                               |  |  |  |  |
| Choose the best seam tape for sealing DuPont™ Tyvek® weather barriers against air and water in both residential and commercial construction. Finish the building envelope with a superior seam tape – DuPont™ Tyvek® Tape.   |                               |  |  |  |  |
|  |                               |  |  |  |  |
| DuPont™ Tyvek® Fluid Applied Flashing & Joint Compound (VOC 25.00 g/L)   |                               |  |  |  |  |
| Fluid Applied Flashing & Joint Compound is an integral part of the DuPont™ Tyvek® Fluid Fluid Applied system, combining the functions of both flashing and joint compound into a single unique product to help increase job site efficiency by preventing lost time and material waste.  |                               |  |  |  |  |
|  |                               |  |  |  |  |
| DuPont™ Tyvek® Fluid Applied WB (VOC 25.00 g/L)  |                               |  |  |  |  |
| DuPont™ Tyvek® Fluid Applied Weather Barrier Systems provide water and fluid applied air barrier protection designed for the unique demands of heavy commercial construction projects.   |                               |  |  |  |  |
|  |                               |  |  |  |  |
| DuPont™ Sealant for Tyvek® Fluid Applied System (VOC 25.00 g/L)  |                               |  |  |  |  |
| Is specifically designed for easy use with the DuPont™ Tyvek® Fluid Applied System: fills gaps around windows, doors and penetrations  |                               |  |  |  |  |
