

October 18, 2016

Mr. Robert Reich
 Manager, Global Environmental Stewardship
 DuPont Safety, Health & Environment and Sustainable Growth Center
 974 Centre Road (CRP 708/243)
 Wilmington, DE 19805 USA

WSP has conducted an independent third party review of DuPont's 2015 greenhouse gas (GHG) inventory with the intention of providing limited assurance of its accuracy and completeness. The scope of the review includes all Scope 1 and Scope 2 emission sources, and Scope 3 emissions from Fuel and Energy Related Activities. The GHG inventory applies to all owned and leased facilities under DuPont's operational control.

WSP provided a "Review Findings" report to DuPont which lists in detail the specific review tasks completed and areas which have been flagged for clarification or improvement. DuPont has addressed all requests for clarification and has completed all necessary corrective actions. The details of the scope of this assurance review can be found in Table 1.

Table 1: Assurance Scope

Assurance Parameter	Specification
GHG Calculation and Reporting Protocols	The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard (Revised Edition); Corporate Value Chain (Scope 3) Accounting and Reporting Standard.
Verification Standard	ISO 14064-3
Level of Assurance	Limited
Organizational Boundary	Operational control
Geography	Global operations
Inventory Period	January 1, 2015 to December 31, 2015
Emissions Covered	
Scope 1	3,691,786 metric tons CO ₂ e (all Scope 1 sources) ¹
Scope 2 Location-based	2,761,201 metric tons CO ₂ e (all Scope 2 sources)
Scope 2 Market-based	2,851,713 metric tons CO ₂ e (all Scope 2 sources)
Scope 3	Category 3 Fuel and Energy Related Activities (FERA): 1,842,146 metric tons CO ₂ e
Supporting Documents Reviewed	2015 Scope 1 & 2 Inventory Calculation Spreadsheet 2015 Scope 3 FERA Calculation Spreadsheet Inventory Management Plan Energy Purchasing Data
Date Review Complete	October 18, 2016

¹ Process emissions sources totaling less than 1% of the Scope 1 and 2 inventory are excluded.

Assurance Finding

Based on these review processes and procedures, WSP has no evidence that DuPont's 2015 GHG inventory is not materially correct, is not a fair representation of the GHG data and information, or has not been prepared in accordance with the Greenhouse Gas Protocol.

Professional Conduct

WSP has conducted this limited assurance review in its capacity as an independent third party in accordance with the ISO 14065 International Standard, *Greenhouse gases — Requirements for greenhouse gas validation and verification bodies for use in accreditation or other forms of recognition*. ISO 14065 specifies the principles and requirements employed by WSP to make this GHG assertion. WSP has not contributed to the compilation of DuPont's 2015 GHG inventory and members of the Assurance Team are not working with DuPont's 2015 GHG inventory beyond what is required of this assignment.

Sincerely,

Daniel Sobrinski
Project Director
