

GOLD WINNER – 2015 DUPONT AWARDS FOR PACKAGING INNOVATION

“Travel-size” Truly Becomes “Carry-size” With New Ultra Slim Spray Bottle

MiiSTS Int’l. Inc.; HotPot Design– USA

Need a blast of mouthwash? Wish you could fit a bottle of hand sanitizer in your tight designer jeans? MiiSTS™ ultra slim sprays makes it possible to easily carry premium everyday essentials for when you need them most. Helping to bring "*Your Personal Care Anywhere,*" MiiSTS™ bottles are establishing a new standard for convenience packaging.

MiiSTS™ is the only flat travel-size bottle in the market. The ultimate in portability and convenience, the MiiSTS™ bottle is the rough dimensions of a credit card and just 5mm thick at its thinnest point. MiiSTS™ is fitted with a pump housing that allows consumers to spray the product while keeping the package leak-proof. The precise engineering of the tight welds on the very thin corners of the injection-molded, polypropylene bottle gives a smooth, virtually seamless, appealing finish.

The sleek and modern MiiSTS™ discreetly fits in tight pockets and bags with virtually no bulge. Each MiiSTS™ contains approximately 11mls (about 150 sprays) of the MiiSTS™ product, including natural hand sanitizer, natural insect repellent, sunscreen spray, lens cleaner, stain remover, burn and bite relief, and more.

Honored for Excellence in Technological Advancement and Enhanced User Experience
