DuPont™ Resolve® Q delivers:

- Better, more consistent postemergence control of many grass and broadleaf weeds, such as morningglory, common lambsquarters and velvetleaf, when tank mixed with glyphosate.
- Residual control of several grass and broadleaf weeds that can emerge later in the season, which means cleaner fields with fewer resprays.
- An additional mode of action to help minimize the occurrence of certain herbicide-tolerant weeds.
- Built-in safener technology, represented by the “Q,” that provides corn growers with the flexibility to confidently apply Resolve® Q herbicide under more diverse weather conditions, across more hybrids and with a wider range of adjuvants.

Rate recommendation

Resolve® Q 1.25 oz/A
+ DuPont™ Abundit® Edge herbicide (glyphosate) (for use on glyphosate-tolerant crops only)
+ atrazine

Application information

- Make postemergence application(s) of Resolve® Q plus glyphosate-containing products to glyphosate-tolerant field corn that is up to 20 inches tall or up to and including 6 leaf-collar.
- Adequate soil moisture is required for optimum activity. Rainfall within 5 to 7 days after application will enhance Resolve® Q residual activity.
- May be used in combination with non-ionic surfactant, crop oil concentrate or methylated seed oil.
- Refer to the glyphosate manufacturer’s label for specific ammonium sulfate and surfactant recommendation.

1 When making applications of Resolve® Q, do not apply more than 1 oz active ingredient rimsulfuron/A during the crop year.

---

**Weeds controlled by DuPont™ Resolve® Q herbicide + glyphosate**

When used in a tank mixture with a glyphosate herbicide, 1.25 ounces of Resolve® Q will add improved burndown and/or residual activity on the following weeds:

- Alfalfa, volunteer
- Barley, volunteer
- Barnyardgrass
- Bluegrass, annual
- Buckwheat, wild
- Chamomile, false
- Chickweed, common
- Cocklebur
- Crabgrass
- Dandelion (6" diameter)
- Filaree, redstem
- Foxtail: bristly, giant, green, yellow
- Henbit
- Johnsongrass, seedling
- Kochia
- Lambsquarters, common
- Millet, wild proso
- Morningglory, ivyleaf
- Mustard: birdsrape, black, wild
- Nightshade, hairy
- Nutsedge, yellow
- Oat, wild
- Panicum, fall
- Pigweed: prostrate, redroot, smooth
- Purslane, common
- Quackgrass
- Radish, wild
- Ragweed, common
- Ryegrass, Italian
- Sandbur: field, longspine
- Shepherd's-purse
- Signalgrass, broadleaf
- Smartweed, Pennsylvania
- Stinkgrass
- Thistle, Canada
- Velvetleaf
- Wheat, volunteer
