

Realize outstanding vegetable protection

DuPont™
Avaunt®
insecticide

Vegetables

DuPont™ Avaunt® insecticide provides vegetable growers with the fast and lasting control they need to help grow good-looking, high-yielding crops. Labeled for more than 100 crops, Avaunt® delivers proven, long-lasting control of a broad spectrum of insect pests. Avaunt® works fast: Pests typically stop feeding in 0 to 4 hours, so you're assured of excellent crop protection. It features a unique mode of action that has minimal impact on most beneficial insects.¹ Avaunt® also offers short reentry and preharvest intervals, so you spend less time waiting to get into your fields and have more time to get other things done.

¹ Do not apply or allow to drift to blooming crops or weeds while bees are foraging in the treatment area. Low impact to bees once spray has dried.

Benefits of Avaunt®

- Group 22 insecticide
- Labeled pests typically stop feeding in 0 to 4 hours for excellent crop protection
- Pest paralysis and death occur in 4 to 48 hours
- Short reentry and preharvest intervals
- Ideal for IPM programs

Get fast, lasting control with Avaunt®

Avaunt® offers long-lasting residual control of a broad spectrum of worms, including cabbage loopers, corn earworms, tomato pinworms and armyworms.²

Plus, Avaunt® delivers 5 to 14 days of residual control to help keep pests under control long after it's applied. Ultimately, the amount of control you get will depend upon the insects present, the level of infestation, the crop and the environmental conditions.

DuPont insect control for performance where it really matters

Good-looking crops are good-selling crops. Trust Avaunt® and the following proven DuPont Crop Protection products to help keep yours looking good and selling well:

- **DuPont™ Lannate® LV and SP insecticides:** Protect the quality and value of your crops with fast-acting Lannate® insecticides. They control the toughest pests, including thrips, aphids and beet armyworm. You can count on Lannate® to provide excellent crop protection with fast knockdown of many other tough pests to keep your crops looking good. You can apply Lannate® alone or in a tank mix. You'll like what you see.
- **DuPont™ Vydate® L insecticide/nematicide:** Vydate® L stops pests above and below the soil. It delivers broad-spectrum control that includes many species of beetles, aphids, thrips, fleahoppers, leafminers, and suppression of multiple species of nematodes.
