DuPont™ Conpol™ 5B10S1

Conpol™ resins Product Data Sheet

**Description**

Product Description

DuPont™ Conpol® 5B10S1 is a concentrated masterbatch utilizing an ethylene-methacrylic acid carrier resin. It is supplied in pellet form and is intended for blending with DuPont Surlyn® and Nucrel® resins to modify the surface properties of resulting films or coatings.

**Restrictions**

Material Status

- Commercial: Active

**Typical Characteristics**

Uses

- Polymer Modifier

Composition

Ethylene Methacrylic Acid copolymer, with slip and anti-block additives

Features

- 5% by weight inorganic type anti-blocking agent
- 10% by weight amide type slip agent

Applications

Coefficient of Friction modifier for the surface of films, coatings, sheeting, or profiles made from DuPont Surlyn® and Nucrel® resins.

Intended for use by blending into Surlyn® or Nucrel® resins utilized in the process of extrusion to produce blown / cast films, sheeting, or extrusion coatings, either in monolayer or coextrusion. Concentrations will vary depending upon application, but normally range from the addition of 2 to 8% Conpol 5B10S1 into a given Surlyn® or Nucrel® resin.
**FDA Status Information**

CONPOL™ 5B10S1 Additive Resin is designed to modify the surface properties of films or coatings. This is a concentrated masterbatch product and is designed to be blended with the resin to be modified.

CONPOL™ 5B10S1 Additive Resin complies with U.S. Food and Drug Administration Regulation 21 CFR 177.1330(a) - Ionomeric resins, subject to the limitations and requirements therein. This Regulation describes polymers that may be used in contact with food, subject to the finished food-contact article meeting the extractive limitations under the intended conditions of use, as shown in paragraph (c) of the Regulation.

The information and certifications provided herein are based on data we believe to be reliable, to the best of our knowledge. The information and certifications apply only to the specific material designated herein as sold by DuPont and do not apply to use in any process or in combination with any other material. They are provided at the request of and without charge to our customers. Accordingly, DuPont cannot guarantee or warrant such certifications or information and assumes no liability for their use.

**Regulatory Information**

For Regulatory status outside the United States, please consult with your local DuPont representative.

**Safety & Handling**

For information on appropriate Handling & Storage of this polymeric resin, please refer to the Material Safety Data Sheet.

A Product Safety Bulletin, Material Safety Data Sheet, and/or more detailed information on extrusion processing and/or compounding of this polymeric resin for specific applications are available from your DuPont Packaging and Industrial Polymers representative.

Read and Understand the Material Safety Data Sheet (MSDS) before using this product
