

Three powerful protection brands. One simple system.

Finding Tyvek® Protective Apparel just got easier.

We are simplifying our product identification system by replacing the original product names and packaging - to an easy-to-follow numeric system and more consistent and recognizable design. Garment performance stays unchanged, the same as before.

Packaging and labels:

Carton box, polybag and labels will change into new designs. Our brand and products will be presented in a more powerful and globally consistent packaging.

Familiar dcodes and part number:

You can continue to use the familiar dcodes and part numbers to place orders. Commercial model names will be updated.

<Example>
CHANGE
Brand: Tychem®C -> **Tychem® 2000**
Model: CHA5 -> **TC198T YL**
NO CHANGE
Dcode: D13675324
Part Number: TYCCHA5TYLLG0050A0

Chest Patch shape:

All garment patches will be upgraded to the shape of a stop sign. Each brand is designated by its own unique color. DuPont™ ProShield® is gray, DuPont™ Tyvek® is blue and DuPont™ Tychem® is orange.

Product Identification Number:

The number within the patch indicates the garment's level of protection. The higher the number, the greater the protection.

Original		New
 Tychem® Reflector®		 Tychem® 10000 FR
 Tychem® TK		 Tychem® 10000
