This Fluorescent Aerosol Screening Test (FAST) was conducted on two layer Nomex® knit hood (CONTROL) configuration with helmet (no ear flaps) and SCBA. Test was done at RTI (Test Number 2122, DOD Test Operations Procedure 10-2-022 modified for head form). These conditions may not be typical of the conditions encountered in actual situations. The results of these tests are only predictions under these specific laboratory conditions. The user is solely responsible for any interpretations of the test data provided by DuPont.
