

DuPont™ Artistri® PPC1200

Digital Inkjet Inks

DuPont™ Artistri® PPC1200

DuPont Digital Printing is a technology leader in the development and supply of inkjet inks and dispersions. The inkjet R&D and application development teams continue to develop innovative new solutions to help our customers expand their business by taking advantage of new and profitable opportunities in the growing production inkjet printing market.

PPC 1200 process color ink set is certified for use in the 600 x 600 dpi Panasonic print head for FAST cycle printing at 40 kHz operation. Designed for high durability and vibrant colors.

Commercial Inks for Production Printing

Applications

- Transactional, books, newspapers, direct mail.
