Protection**

## SUPPLEMENTAL LABELING

### DUPONT™ ALLY® XP HERBICIDE

FOR USE IN THE STATES OF CO, ID,  
MN, MT, NE, ND, OR, SD, AND WA

## DUPONT™ ALLY® XP HERBICIDE

EPA REG. NO. 352-435

### FOR USE IN THE STATES OF COLORADO, IDAHO, MINNESOTA, MONTANA, NEBRASKA, NORTH DAKOTA, OREGON, SOUTH DAKOTA AND WASHINGTON

THIS SUPPLEMENTAL LABEL EXPIRES NOVEMBER 1, 2018 AND MUST NOT BE USED OR DISTRIBUTED AFTER THIS DATE.

#### KEEP OUT OF REACH OF CHILDREN

#### CAUTION

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand this label, find someone to explain it to you in detail.)

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your state, consult the agency responsible for pesticide regulation.

#### PRODUCT INFORMATION

Apply DuPont™ ALLY® XP at 0.033 ounces/acre when combined with at least one additional herbicide registered for use on the same crop such as DuPont™ EXPRESS® with TotalSol®, DuPont™ DICAMBA® XP, and DuPont™ GR1™.

#### CROP ROTATION

Fields treated with ALLY® XP at 0.033 ounces/acre may be rotated to the following crops at the specified intervals when located in the states of Colorado, Idaho, Montana, Nebraska, Oregon, South Dakota and Washington; and outside of the Red River Valley in the states of North Dakota and Minnesota. Read and follow all label instructions for rotational crops and intervals for any companion products before using these mixtures. Follow the most restrictive labeling.

Follow the rotational intervals for DuPont™ ALLY® XP at 0.1 ounces per acre listed in the following sections of the ALLY® XP label: Rotational Intervals for Cereals All Areas - Following Use of DuPont™ ALLY® XP at 0.1 ounce Acre, and Rotational Intervals for crops in Non-Irrigated Land Following Use of ALLY® XP at 0.1 ounce per Acre for the states of Colorado, Idaho, Montana, Nebraska, North Dakota (outside of the Red River Valley), Oregon, South Dakota, and Washington. For the State of Minnesota outside of the Red River Valley the rotational intervals listed below must be followed.

| Crop   | Soil pH                    | Minimum Rotation Interval (months) |
|--|----------------------------|------------------------------------|
| Sorghum, Grain   | 7.9 or lower               | 11                                 |
| Peas, Dry/Green  | 7.9 or lower               | 11                                 |
| Canola   | 7.9 or lower               | 11                                 |
| Flax   | 7.9 or lower               | 11                                 |
| Lentils  | 6.8 or lower<br>6.9 to 7.9 | 11<br>22                           |
| Alfalfa  | 6.8 or lower<br>6.9 to 7.9 | 11<br>22                           |
| Beans, Dry   | 6.8 or lower<br>6.9 to 7.9 | 11<br>22                           |
| Sunflower  | 7.9 or lower               | 11                                 |
| Field Corn   | 7.9 or lower               | 12                                 |
| Soybean  | 7.9 or lower               | 12                                 |
| Wheat (spring, durum or winter),<br>triticale or spring barley | 7.9 or lower               | 1 day                              |

**Rotation Intervals for Crops, and/or Soil pH Not Listed Above:**

- Refer to the EPA-registered package label for the appropriate rotational crop interval.

To rotate to a major field crop at an interval shorter than specified, a field bioassay must be successfully completed for that crop. Also, a field bioassay must be successfully completed before rotation to any minor crops (as determined by the USDA criteria). See section on Field Bioassay on the ALLY® XP EPA-registered package label for further information.

**IMPORTANT RESTRICTIONS**

- When ALLY® XP is applied at 0.033 ounces/acre, do not use liquid fertilizer in addition to, or as a substitute for, a surfactant.
- Do not use on soils with pH greater than 7.9 (for example, highly calcareous soils) if the following rotated crop is sensitive to ALLY® XP. Extended soil residual activity could adversely affect minimum rotation intervals for all crops.

**IMPORTANT NOTICE**

**BEFORE BUYING OR USING DUPONT PRODUCT(S) COVERED BY THIS LABEL, READ THIS LABEL, THE EPA REGISTERED LABEL AND THE LABELS FOR ALL PRODUCTS REFERENCED IN THIS LABEL, IN THEIR ENTIRETY. FOLLOW ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS.**

This label contains supplemental instructions for use of the referenced DuPont product. Follow these instructions carefully. This label must be in the possession of the user at the time of application.

Read the Limitation of Warranty and Liability on the Section 3 Federal product label before buying or using THIS product. If terms are not acceptable, return the unopened package at once to Seller for full refund of purchase price paid. Otherwise, use by Buyer or any other User constitutes acceptance of the terms of the Limitation of Warranty and Liability on the Section 3 Federal product label.
