DuPont de Nemours (Luxembourg) S.à.r.l.

EC Directive 89/686/EEC

EC Type-examination

Issue 1

PPE Product

DuPont™ Proshield® 30 model CHF5a hooded coverall, made from a microporous film material, with internal sewn seams and elasticated at the cuffs, ankles, hood & waist, which is available in six nominal sizes.

It is certified that the manufacturer's technical file and the above mentioned PPE have been assessed and found to be in accordance with the requirements of Council Directive 89/686/EEC. When examined the PPE satisfied the requirements in the relevant harmonized standards:

EN ISO 13982-1:2004 + A1:2010 (Type 5: Limited life, full body protection against airborne solid particulates);

EN 13034:2005 + A1:2009 (Type 6: Limited life, full body chemical protective clothing offering limited protection against liquid chemicals).

In addition with one exception the PPE satisfied the requirements of

EN 1073-2:2002 (Non-ventilated protective clothing against particulate radioactive contamination) with a performance classification of TIL Class 1. The exception is that clause 4.2 specifies that the minimum puncture resistance should be level 2, but the fabric used has a puncture resistance classification of level 1 (as required for the other standards listed above).

Additionally the fabric met the requirements given in EN 1149-1:1995 for electrostatic dissipative protective clothing on the internal surface.

The manufacturer's information notice (Proshield® 30 model CHF5a, October 2011/15), in English, has been inspected and found to have addressed all of the relevant requirements of the standards. However, the detailed content of the information notice is the responsibility of the manufacturer, as are translations into other languages.

This certificate is issued on the strict condition that appropriate checks on manufactured PPE, as detailed in Article 11 of the Directive are implemented and maintained while the model is in production.

Certification is based on technical file reference: Proshield® 30 model CHF5a dated November 2011
