

This is MOLYKOTE®

Specialty Lubricants

MOLYKOTE®

GREASES

Solid to semisolid materials consisting of a lubricating fluid, thickening agent and additives.
Used on rolling element bearings and other moving parts.

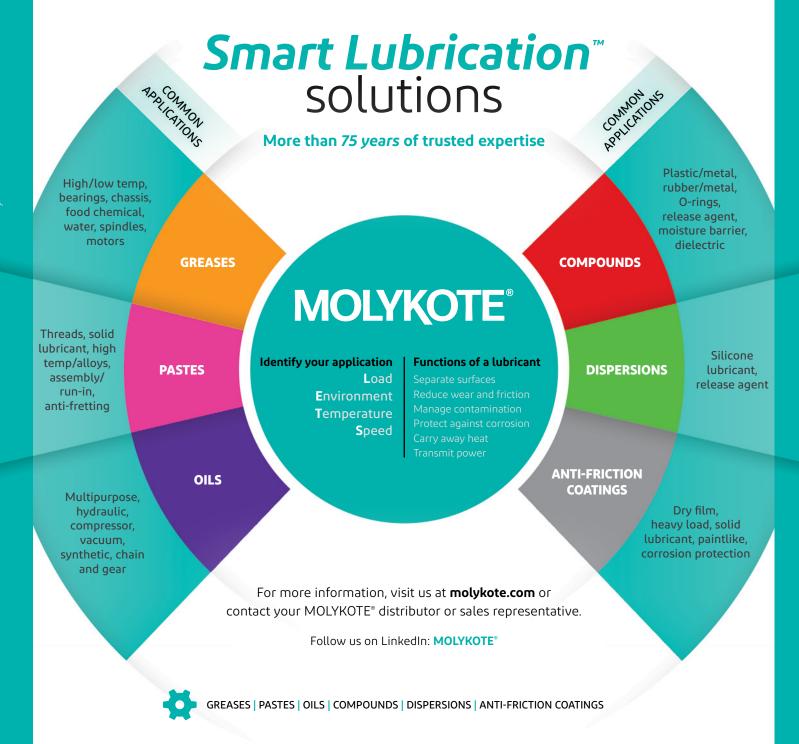

PASTES

Greaselike materials containing a very high percentage of solid lubricants. Used for assembly and lubrication of highly loaded, slow-moving parts or threaded fasteners.

OILS

These lubricating fluids are fortified with carefully selected additives to provide optimum performance and service life while maximizing protection of the equipment and machinery they are designed to lubricate.

COMPOUNDS

Greaselike materials composed of silicone fluids and silica fillers. Used for their sealing, dielectric, nonmetalto-metal lubricating properties.

DISPERSIONS

Finely divided solid lubricants suspended in lubricating fluid; preferred when it is necessary to apply lubricants in liquid form.

ANTI-FRICTION COATINGS

"Lubricating paints"; when applied, these materials cure to form dry, solid lubricant coatings that are bonded to the surface.

**Contact your MOLYKOTE® distributor complete MOLYKOTE® product line and identify the solution that best meets

COMMON PRODUCT SOLUTIONS

BR2 Plus Heavy-duty black grease w/MoS₂ and other solid lubricants for general applications

G-4700 Long-lasting synthetic black grease w/MoS₂ and other solid lubricants for heavier loads, extreme pressures and wider temperature applications than BR2 Plus

G-4500 White, food grade NSF H1 grease, long-term synthetic w/solid lubricants for general applications w/moderate loads and high speeds

G-1502FM White, very tacky, food grade NSF H1 grease, long-term synthetic w/higher levels of solid lubricants for demanding applications w/high loads

BG-20 High-speed bearing grease

33 Medium Low-temp silicone grease

44 Medium High-temp silicone grease

3451 Chemical-resistant grease

1000 Paste Threaded connections. general use

P-37 Paste Threaded connections, high temperature, high alloys

G-N Plus Assembly and running-in

DX Paste Fretting (high-frequency vibration) between contracting/ mating parts, nonstaining

P-1900 FM Threaded connections and mechanical parts in food machinery industry

P-40 Metal-free paste for mechanical components and threaded connections in offshore environment

L-1122FM Gearboxes, standard industrial (spur. helical, bevel) synthetic PAO, ISO 220 viscosity grade

L-1146FM Gearboxes, worm drive industrial synthetic PAO, ISO 460 viscosity grade

L-1468FM Chain oil synthetic PAO. ISO 68 viscosity grade

L-4611 Reciprocating compressor oil synthetic diester, ISO 100 viscosity grade

L-1246 Rotary screw compressor oil synthetic PAO, ISO 46 viscosity grade

L-1668FM Rotary vane vacuum pump oil synthetic PAO blend, ISO 68 viscosity grade

*For these applications, the products listed are the most commonly used in this subset of the complete MOLYKOTE® product line.

4 Compound Electrical insulating compound

COMMON PRODUCT SOLUTIONS

111 Compound Valve lube and sealant, static O-ring lube w/specific specifications/approvals

55 O-Ring Grease O-ring lubricant, dynamic applications

G-804 Valve lube and sealant, static O-ring lube

316 Silicone Release Spray Clear silicone release agent and lubricant

557 Silicone Dry Film **Lubricant** Extreme-pressure dry-film lubricant for exceptional release and lubrication

D-321R Air cure, dry film, higher loads, low coefficient of friction

> 3402-C LF Air cure, dry film, high loads w/enhanced corrosion protection

D-7409 Heat cure, higher durability than air cure

*For these applications, the products listed are the most commonly used in this subset of the complete MOLYKOTE® product line.

High-current electricity, vacuum sealing, good water and oxidative resistance

ADVANCED APPLICATIONS

Food contact/release. metal protection, solid lube additives. extreme temperature chains, low temp, gear oil additives

Coefficient of friction, load, color/transparent, durability, water-based, flexibility

About MOLYKOTE® Specialty Lubricants

Since 1948, customers around the world have trusted the MOLYKOTE® brand for performance and expertise to help solve complex, technical design and lubrication challenges. Today, our greases, compounds, pastes, dispersions, oils and fluids, and anti-friction coatings support customers'

innovation, performance and sustainability needs. To learn more about our extensive product and service offering, to utilize our interactive product selection tool, or to locate a distributor, visit **molykote.com**.

Contact us

MOLYKOTE® has Contact Centers around the globe. Find the phone number for the center nearest you at www.dupont.com/molykotecontact.
