DUPONT
Artistri®

Brown Manufacturing Group, Inc.

Fully Automated Industrial DTF Production.

DuPont™ Artistri® and Brown Manufacturing Group combine powderless consumables with YET-TEE automation to help industrial apparel decorators scale DTF production with fewer manual touchpoints, greater consistency, and cleaner production.

Two Technologies. One Automated Workflow.

ARTISTRI® JA1100 JETTABLE ADHESIVE
Powderless precision.

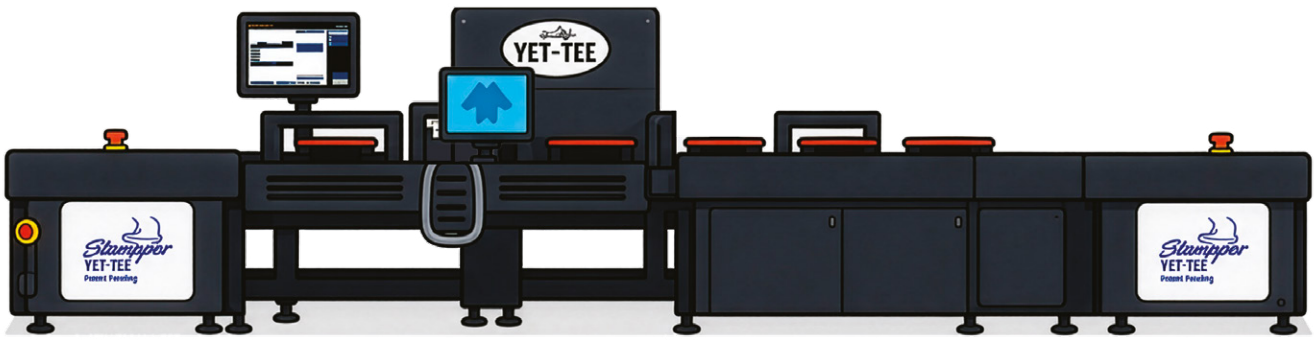
Digitally jetted adhesive eliminates TPU powder, reducing manual handling while delivering cleaner production and a softer finished transfer.

BROWN YET-TEE AUTOMATION
Industrial productivity at scale.

Barcode-driven automation matches artwork to garments and streamlines key production steps from printing, transferring, through finishing.

What Automation Makes Possible

- Fewer manual touchpoints
- Powderless adhesive application
- Greater repeatability
- Higher throughput
- Softer hand feel
- Scalable production



One Complete DTF Solution

Artistri® P1600 Pigment Inks
Brilliant color. Reliable performance.

Artistri® JA1100 Jettable Adhesive
Powderless adhesion.

Artistri® DTF-120 Transfer Film
Consistent transfers.

Built Around What Decorators Value*

90%
Prefer a softer hand feel

80%
Prioritize wash durability

88%
Seek cleaner production environments

*Based on a 2025 DuPont survey of more than 200 print service providers and apparel decorators.
