

DuPont™ Color G Series Ink

Direct to Garment Pigment Inks

DuPont Color G Series digital textile inks are a step-change in technology, offering a 30% improvement in color compared to previous generation digital DTG inks. The ink system significantly streamlines the DTG workflow and is compatible with existing automated industrial equipment, saving both time and manpower. Color G Series inks are the first to provide support for next-generation industrial printers that print up to three times faster.

When coupled with DuPont full process technical support and world-class, ISO 9000 certified production standards, Color G Series is the ink platform that easily integrates into industrial DTG production.

Application Properties

DuPont Color G Series ink is formulated with proprietary DuPont dispersion and polymer technology and is compatible with industry standard heat tunnel for drying and curing.

The ink and pretreatment are integrated into a matched system that works together for optimum throughput and results.

Printhead Compatibility

DuPont Color G Series ink is compatible with the following industrial piezo-electric printheads:

- Kyocera KJ4B 300 dpi
- Kyocera KJ4B 600 dpi
- Ricoh GH2220

Commercial Supply

DuPont Color G Series ink is supplied in 2 liter bottles, 2x10 liter bottles or 200 liter drums.

Available only to Authorized Distributors of DuPont™ Artistri® Ink.

Storage**

The ink should be stored in a clean, dry area with temperature controlled between 10 – 40 °C (50 – 104 °F).
