

# ProClean<sup>®</sup> apparel for controlled environments

Our ProClean<sup>®</sup> brand includes four levels of protection for your controlled environment applications and non-hazardous general manufacturing apparel needs.

## ProClean<sup>®</sup> 1

Bouffants and beard covers made from spunbond polypropylene fabric.

## ProClean<sup>®</sup> 2

Garments and accessories such as frocks, lab coats, scrubs, sleeves, gowns, bouffants, hoods, beard covers, boot and shoe covers, and sterilization wraps made from a variety of high-quality fabrics.

## ProClean<sup>®</sup> 3

Sterile procedure gowns made from spunbond meltblown spunbond (SMS) fabric with anti-static treatment.

## ProClean<sup>®</sup> 6

Garments made from a microporous composite fabric offer improved non-hazardous light liquid splash protection.

## Wide range of applications

DuPont<sup>™</sup> ProClean<sup>®</sup> garments are used in the biotech, pharmaceutical, medical device manufacturing and electronics industries, as well as in other controlled environments. With a wide range of proven, science-based solutions, DuPont products help ensure superior protection for your business-critical systems, equipment and cleanrooms. ProClean<sup>®</sup> products may also be appropriate for non-hazardous general manufacturing applications.

## Customer support—we're here to help

### DuPont<sup>™</sup> SafeSPEC<sup>™</sup>

Our powerful web-based tool can assist you with finding the appropriate DuPont garments for controlled environments.
