

# DuPont™ Sierra™ masks for Controlled Environments

DuPont offers a wide range of protective clothing—from low protection to high—that addresses the needs of manufacturing workers. With DuPont protective apparel, employers can enjoy peace of mind knowing that their workers are protected from a variety of hazards so that they can perform at their best.

Sierra™ masks for Controlled Environments increase compliance through comfort and provide an ideal balance of bacteria and particle filtration, efficiency and breathability.

Some masks compromise breathability and barrier performance. Either breathability is reduced to achieve barrier or barrier is reduced for higher breathability. With Sierra™ masks, you get both breathability and barrier protection for your Controlled Environment needs without compromising the comfort you want. Sierra™ masks may also be appropriate for non-hazardous general manufacturing applications.

## The right fit for your Controlled Environment

Sierra™ masks meet the following cleanroom standards:

- Comfortable
- Low-linting
- Minimized particle retention

## Customer support—we're here to help

### DuPont™ SafeSPEC™

Our powerful web-based tool can assist you with finding the appropriate DuPont garments for Controlled Environments. safespec.dupont.com

### Certified Industrial Hygienist team

A DuPont Certified Industrial Hygienist can conduct a job hazard assessment to help you determine the best DuPont garment for a specific hazard.
