# Metal Lamination Case Study

No rust here! Tedlar® film was chosen to protect the DuPont Yerkes plant. Tedlar® film TGY15BG3, Granite Gray was laminated to steel then formed into corrugated panels which were used to construct the plant's façade. Even after 30 years, the plant remains protected from rust, yellowing, fading and chalking without any need to repaint.

**Area of Application:** Building & Construction

**Type of Application:** Metal façade at industrial plant

**Year of Construction:** 1990

**Location:** Buffalo, NY, USA
