Metal Lamination Case Study

The pictures below taken in fall of 2019 show 27 years of lasting color performance of Tedlar® PVF film. The corrugated metal on the sidewalls of the building are laminated with Tedlar® film TSB15BL3 Salem Blue color. The Tedlar® film has resisted fading, chalking, and cracking keeping the outside of the building looking “blue” for years and years to come.

Area of Application: Building & Construction

Type of Application: Metal façade at industrial plant

Year of Construction: Installation in 1992

Location: Buffalo, NY, USA
