BLUE TALK

WATER ACADEMY

PROCESS ACADEMY

Jan 28 Introducing Desalitech's CCRO Launch into WAVE Design Software

Feb 4 Corporate Governance Driving Sustainability: How Kimberly Clark Makes a Difference

Feb 18 Classic troubleshooting cases in fossil power applications & Resin analysis quick guide

Mar 4 Deoiling technologies driving sustainability in Oil & Gas industry

Mar 10 FilmTec™ Fortilife™ membranes matched with Energy Recovery Ultra PX™ provide breakthrough in Minimal Liquid Discharge affordability

Mar 11 Extraction of Gold from preg robbing ores using AMberSep 91419XL

Mar 18 Nuclear Power panel with industry experts

Mar 25 Desalitech's CCRO in Industrial Utility Water

Apr 8 Ion Exclusive Chromatography driving an economic way for minerals removal in Sugar Processing

Apr 15 Desalitech's CCRO in Ingredient Water

Apr 22 A Water-Optimized World: Bringing innovations that can help create clean water future for all

Apr 29 Desal Advisor: the user friendly solution to design pre-treatment and membrane desalination systems

May 6 Desalitech's CCRO in Municipal Water & Wastewater

May 13 Finding a path to better desalination through science

May 20 Overview of DuPont offering in injection water

May 27 Optimizing existing Ion Exchange Systems for Industrial water

Jun 10 Desalitech's CCRO in General Industry

Jun 17 Optimal cleaning of reverse osmosis and nanofiltration

Jun 23 Introducing NEW ULTRAFILTRATION portfolio into WAVE

Jun 24 Novel Chromatography IER used for Lactic Acid Purification

Jul 1 Learn how Ligasep™ can optimize your existing demin water system

Sep 2 Desalitech's CCRO in Produced Water

Sep 16 A Water-Optimized World: Increasing industrial output through water reuse and conservation

Sep 23 Demineralization - Introducing a new resin technology to capture TOC

Sep 30 Treatment of produced water for removal of other components apart from oil

Oct 7 Desalitech's CCRO Remote Control Software

Oct 14 A visionary water strategy in the microelectronics industry

Oct 20 Enzyme Immobilization enabling efficient way for Sugar Conversion

Oct 21 Innovative launch | Highest rejection brackish water RO: learn how to achieve the highest water quality in Desal systems

Oct 28 Introducing a Revolutionary Biofouling Prevention Process

Nov 3 Fossil Power: Resin selection for make-up demin and condensate polishing

Nov 4 Reverse Phase Resins for Oligonucleotide and Peptide Purification

Nov 11 Saving water and optimizing ion exchange resin utilization with packed bed technology including WAVE DEMO

Nov 18 Innovative solutions and new applications in Oil & Gas industry

Nov 23 A Water-Optimized World: the future of the water

Learn what's there for you
