

DuPont™ Multibore™ PRO

The world's first polymeric Ultrafiltration membrane
with 19 capillaries

Bringing PRO to the industry

The innovative DuPont™ Multibore™ PRO fiber with geometrically optimized 19 bore structure delivers proven performance within a significantly smaller footprint.

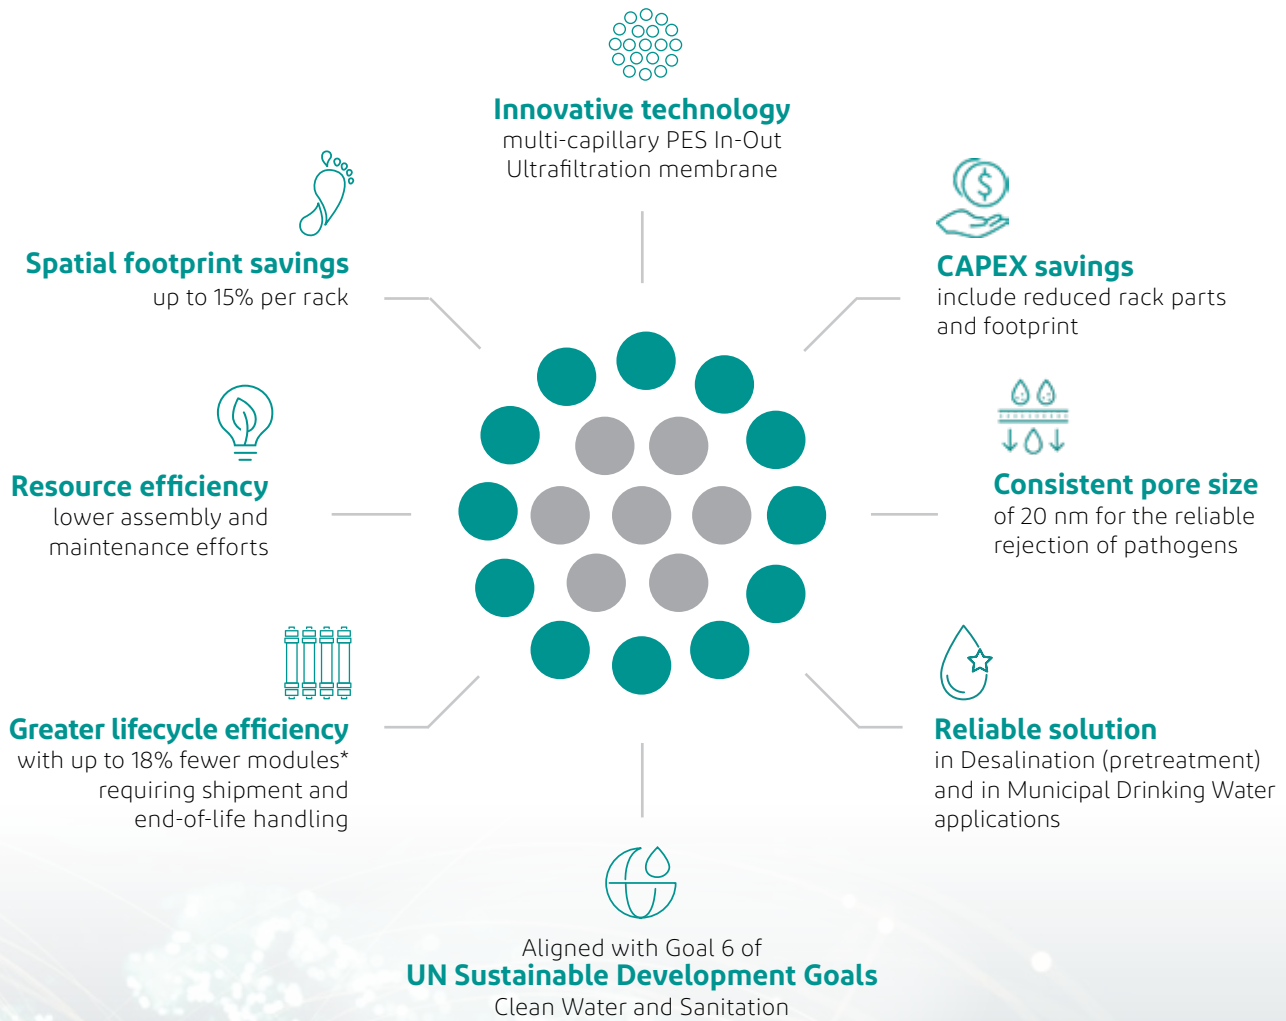

- Highly robust Polyethersulfone In-Out Ultrafiltration membrane
- Exceptional chemical resistance
- High colloidal particulate, bacteria and virus log removal rate
- Reliable protection of downstream Reverse Osmosis
- Low energy consumption through excellent filtration permeability

Robust
Original**

Bringing **PRO** to the industry

DuPont's next-generation PES In-Out Ultrafiltration Multibore™ **PRO** membrane is the world's first multi-capillary membrane with a 19 capillary arrangement and precision structure, helping reduce the number of modules needed in filtration systems.
