

Dan Barish
Global Business Manager, TCS & Solar Silicones
DuPont Photovoltaic & Advanced Materials

Dan was appointed Global Business Manager in June 2018 for the newly acquired product lines of Trichlorosilane and Solar Silicones with overall responsibility to integrate, stabilize and ultimately grow these businesses for DuPont. Prior to this appointment, he was the Strategic Planning Manager for the Photovoltaic and Advanced Materials business where he successfully integrated the Tedlar® and MicroCircuit Materials Pastes business and developed strategies leading to significant growth and synergy realization.

In his 28 years with DuPont, Dan has held positions in technology, operation leadership, product management, quality leadership, marketing, sales, planning and business management. His positive attitude, drive for results and ability to motivate those around him enabled Dan to make significant impact in the Fluoroproducts and Electronics businesses within DuPont and many product lines including Tedlar®, Teflon®, Freon® alternatives, Nafion®, Solamet®, ETFE and solar silicones. He had assignments in New Jersey, Kentucky, Texas, North Carolina and Delaware.

Dan earned his Bachelors of Science in Chemical Engineering from Penn State University in 1992 and his Master of Business Administration from the University of Louisville in 1995. Throughout his career with DuPont, he received the Corporate Environmental Respect Award, Corporate Engineering Excellence Award, Corporate Critical 50 Growth Award and Six Sigma Black Belt certification.
