

DuPont™ Tyvek® 400 SFR

Secondary flame resistance with the protection, durability and comfort of Tyvek®

- Lightweight disposable overgarment designed to help protect and preserve primary flame-resistant (FR) garments
- Composed of flash spun high density polyethylene breathable nonwoven Tyvek® fabric that has been flame-retardant treated, available only from DuPont
- For use over primary flame-resistant protective clothing
- Relaxed fit overall design features a diamond gusset crotch to allow for unrestricted movement
- Offers an inherent barrier against hazardous and non-hazardous particles, oils and greases
- Features red external stitched seams, red zipper and red chest patch border
- Available in hooded and non-hooded options

SafeSPEC™—we're here to help

Our powerful web-based tool can assist you with finding the appropriate DuPont garments for chemical, controlled environment, thermal and mechanical hazards.

safespec.dupont.com

Certified Industrial Hygienist team

A DuPont Certified Industrial Hygienist can conduct a job hazard assessment to help you determine the best DuPont garment for a specific hazard.

NOTE: Tyvek® 400 SFR garments provide only secondary flame-resistant protection. They must always be worn over appropriate primary flame-resistant protective clothing in an environment that needs flame protection, along with other personal protective equipment that protects your face, hands, and feet. For Tyvek® 400 SFR hooded garments, a primary flame-resistant hood/balaclava should be worn.
